

# POWERFUL SOLUTIONS

AUSTRIAN SPIRIT AT WORK

***G. KLAMPFER***

## Innovation, flexibility and trust.

These were the values that Gerhard Klampfer used to put his stamp on the company Klampfer in order to make it into a success. Since he left us, far too early, his values have remained the driving force behind the company under new management. These values give our customers the stability that they need in a time of constant change.

### MANAGEMENT BOARD

Dr. DI(FH) Günther Hinterberger, MBA

# A COMPANY WITH A PROFILE SUCCESS\* SINCE 1985

\*Klampfer is proud of the various awards it has received.  
Among these, an award from Price Waterhouse in the category "Austria's Leading Companies".

Klampfer stands for comprehensive overall services from one source. The company has specialised in particular on electrical systems and building technology systems for industry and trade. We support our customers all the way to success, from consultation to implementation.

In this process, Klampfer relies on its large international team with its goal-oriented efficiency in providing solutions and many years of experience. Customers benefit from transparent processes and absolute reliability.

Lanserhof Tegernsee - Europe's most modern health resort

Frigologo - Logistic centre for frozen food

# UNLIMITED SERVICE

We operate all over the world from our headquarters in Leonding. This office is also responsible for the coordination of branches and the planning of projects. Our company is constantly growing. We are able to optimally respond to the requirements of the market and the needs of customers due to the centralisation of our logistics centres and company headquarters.

We are exactly there, where you need us.

Our branches are in Romania, Serbia, Russia, Ukraine, Moldova, Kazakhstan, U.A.E., Germany and Turkey.

Tight coordination of job sites and strong partnerships with subcontractors and other partners are critical to delivering quality projects on time and on budget. Our general contracting teams take pride in their relationships with subcontractors and other project partners and work hard to foster cooperation and mutual respect on all our project sites. By leveraging our partner relationships and measuring project status through detailed schedules, methodical safety plans and effective cost control reporting, our general contractors are able to closely monitor and quickly identify issues that could impact the budget and project timeline.

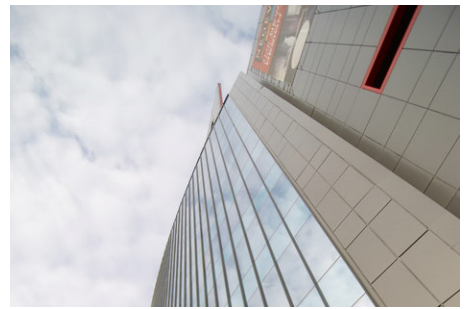

#### OUR SUBSIDIARIES:

- ROMANIA / BUCHAREST
- UKRAINE / KIEV REGION
